We asked the Enterprise Strategy Group (ESG), an IT analyst research and strategy company, to examine the challenges your business customers are facing as they take on malware and other cyber threats at network perimeters.

ESG talked to 200 businesses in North America with 1,000+ employees, across multiple verticals, including:

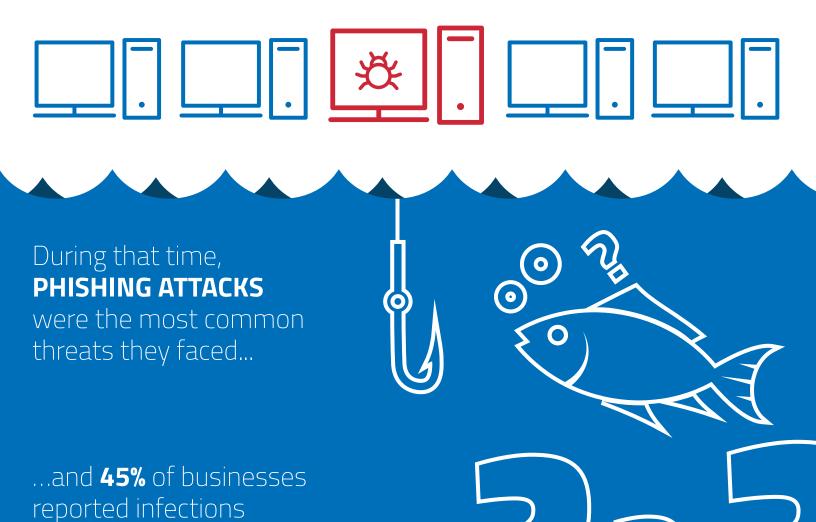

First, **50%** of businesses spend **11-25%** of their budget on cybersecurity.

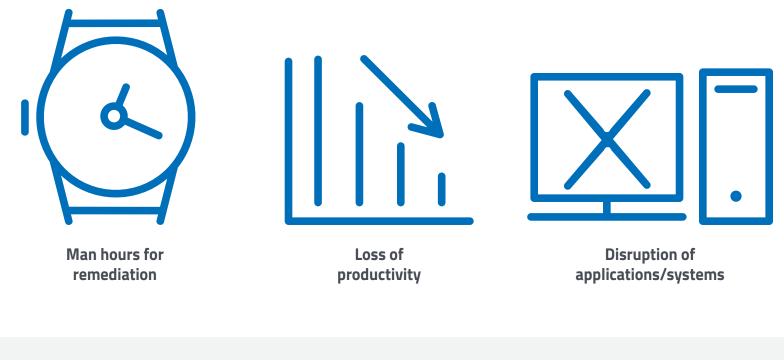

In the last 2 years, 65% of businesses had up to 10 cybersecurity incidents.

Nearly 1 in 5 had 11 or more.

related to INSIDER NEGLIGENCE.

The biggest losses suffered were:

For the next two years, businesses are most concerned about:

As malware continues to evolve, it's clear that many of your

business customers still have work to do to ensure the security of

their corporate assets and users. Discover the smarter way to protect customers against modern threats at www.webroot.com/brightcloud.
