WEBROOT®
Smarter Cybersecurity™

Want to join the Webroot® Affiliate Marketing Program,

but not sure how you fit as an MSP or IT Consultant?

Our Affiliate Marketing Program is perfect for managed service providers (MSPs) or IT consultants who believe in Webroot products, but do not want to manage it for the individuals or companies they service. An MSP or consulting organization can simply sign up as a publisher through the Commission Junction (CJ) platform, then request to be a publisher for Webroot.

Receive a minimum 20%* commission

on all sales made from or through your website.

Get paid directly from CJ

No need to worry when or if you'll get paid. All payments are made monthly from CJ directly into your bank account.

Grab links, banners, holiday campaigns

Get what you need directly from CJ— no need to ask Webroot.

Help is standing by

If you have questions or issues, you have full support from CJ, as well as a Webroot Affiliate Marketing Specialist.

How to Sign Up:

1. Visit www.webroot.com/us/en/home/affiliates and click SIGN UP.
2. Fill out the form and follow the steps to get your publisher account created in CJ.
3. Once you've set up your new publisher account, just apply to join the Webroot publisher network. You can find the Webroot account by searching for our name or Advertiser ID: 2556944.
4. We will accept your request** as soon as possible. Once your request is accepted, you can selling immediately!

*20% is the base commission for all new publishers. Over time, if a publisher proves to be successful in driving sales of Webroot products, a commission increase can be discussed and implemented. *
*Webroot will accept a request if the MSP/IT Consultant is on brand, has knowledge of the internet security industry, and has a proven record of success.
